## **A Brief History**

In 1996, HRH Prince Talal Bin Abdul Aziz Al Saud—chairman of the Arab Gold Programme for United Nations Development Organizations (AGFUND)—took steps toward establishing AOU as a pan-Arab project. AOU's concept was formally presented in a UNESCO regional conference held in Beirut in March 1998, and subsequently in a UNESCO international conference later in October of that year in Paris.

Five Arab countries offered to host AOU's headquarters (HQ). They were Bahrain, Egypt, Jordan, Kuwait and Lebanon. In December, 2000, a decision was made for HQ and a branch to be located in Kuwait. At that time, 5 branches were also established in Bahrain, Egypt, Jordan, Lebanon and Saudi Arabia. The 7th branch was established in September, 2007 in the Sultanate of Oman. As for the 8th branch, it was established in the Republic of Sudan in September, 2013. Lastly, and most recently, the 9th branch was established in Palestine in 2017. AOU intends to establish more branches, mainly in Yemen and in collaboration with the local authorities. In addition to Syria and Mauritania when the time is right.

Teaching at AOU started in early October, 2002 in Kuwait, Jordan and Lebanon Branches. Bahrain, Saudi Arabia and Egypt branches commenced teaching in the Fall semester of 2002-2003. As for Oman branch, it started in the Spring semester of 2007-2008. Sudan branch started in the Spring semester of 2013-2014, and lastly, Palestine branch in 2018-2019.

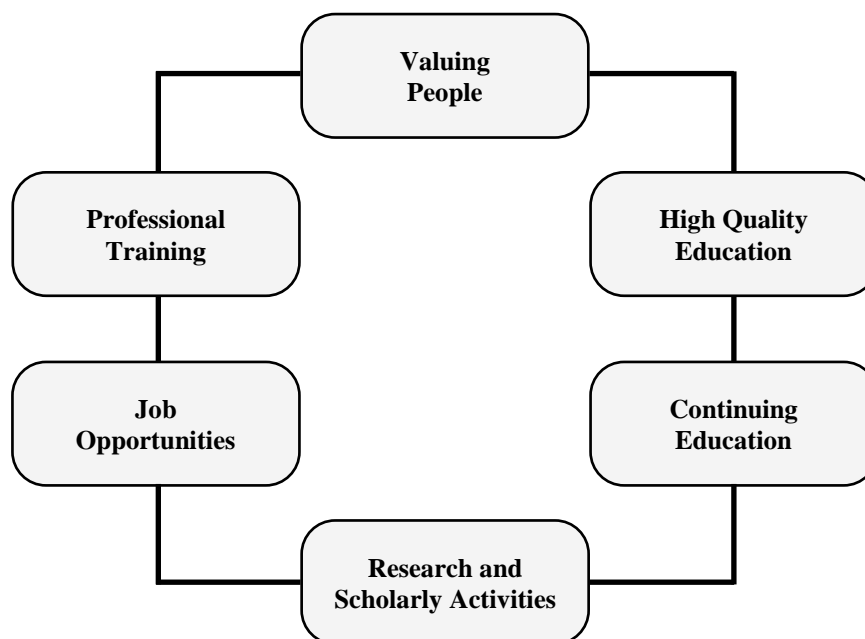

## **University Vision**

A pioneering Arab Open University dedicated to building the science and knowledge society.

## **University Mission**

Developing and disseminating knowledge, and building expertise according to international quality standards without temporal or spatial barriers, in order to contribute in preparing the manpower needed for sustainable development, and building the science and knowledge society in Arab countries.

## University Goals

Motivated by the vision, and in order to achieve the mission, the University adopted the following:

- Students are encouraged to become independent learners as self-learning is heavily emphasized. This enables students to become lifelong learners even after graduation.
- High quality interactive educational materials are employed.
- The language of instruction is English, which helps students practice and become more proficient. It is crucial nowadays to have good English communication skills.
- Mobility and opportunities for credit transfer across branches are possible.

## **Partnership with OU, UK**

AOU sought institutional accreditation and validation from the Open University Validation Partnerships (OUVP) to demonstrate a commitment to high quality by accepting UK academic, operational and service norms to students. AOU received institutional accreditation and validation from OUVP in the years 2003, 2007, 2012 and 2017, each valid for a period of 5 years.

AOU is approved by OU, UK to offer higher education programmes leading to OU, UK validated awards. These validated awards have a parity of esteem similar to awards offered throughout UK higher education institutions. Additionally, a validated award is exactly the same as an OU direct award in terms of employment or postgraduate application.

Under this partnership, OU, UK provides the following to AOU:

- Validated programmes and courses.
- Learning materials (textbooks, audiovisuals, etc.)
- Programme monitoring and external examining.
- Dual awards (BA/BSc + Internationally recognized UK qualification).
- Exit awards (Diplomas and certificates).

## **Student Support Services:**

AOU's basic value perceives students as the actual wealth of Arab societies, and therefore, caring for them and investing in them is among its priorities. This basic value is further strengthened by its Equal Opportunities and Respect for Diversity policy wherein AOU makes provision to facilitate the teaching and learning of all individuals irrespective of gender, age, religion, nationality, ethnicity or disabilities and special requirements.

## **Services for students with disabilities/special requirements:**

### **Objective:**

- To serve all students equitably by facilitating in areas a student might be challenged either physically, mentally, emotionally or having any particular type of learning disability.
- To ensure that no student is disadvantaged and feels deprived of any opportunity that may impede their learning.
- To provide the best possible professional services to students with disabilities/special requirements in a non-judgmental environment.

While AOU will provide students with disabilities, all possible assistance on campus, the journey to learning is mutual and therefore the student is expected to:

- Declare disability that require special attention. It is essential that the student is forthcoming in reporting to the University the exact nature of the challenge the student faces in learning. The AOU disability declaration form must be completed in this regard.
- Be aware of the exact nature of their disability and present it to the concerned Branch staff at the time of admission or as and when it has been identified. In case, where the student is unable to present the same, the guardian (preferably a family member) may do the same on behalf of the student and duly sign on the declaration form.
- Take equal responsibility for his/her progress, success and failure in academics. The student must communicate regularly with the tutors and academic advisors in case of facing any difficulty in learning.

### **Student Entitlements:**

Students across AOU branches are covered by the Arab Open University Equal Opportunity and Respect for Diversity, and the disability regulations of each Branch country towards inclusive education.

- Equal access to all courses, programmes, services and facilities offered to students at AOU.
- Equal opportunity to participate in student events.
- Access to information in the appropriate format that meet their 'special requirements' and that include announcements, text material, assessments, results etc.
- Access to appeals and complaints systems resulting from any dissatisfaction with grades or other teaching and learning provisions.
- Entitlement to complain if the student has been violated due to disability of any right or privilege otherwise available to other students.

## **Integrated Learning System**

AOU's learning and teaching model is derived from high quality educational materials. The offered courses are taught in English and are licensed from OU, UK. The following is a brief description of AOU's model:

- The ratio of students to tutor in any subject is 25:1.
- A University-wide electronic Learning Management System (LMS) facilitates learning.
- All branches are equipped with multimedia and computing laboratories to support students.
- Student assessment is carried out as follows:

Continuous Assessment (50%) which consists of Midterm Assessments (MTAs) and Tutor-Marked Assignments (TMAs).

Final examination (50%) at the end of the semester.

- Tutors provide comprehensive feedback on TMAs to direct students toward better understanding of the subject matter, and to enhance their learning experience.

### ***1) Student Learning Package***

This package contains most of the student's needs for his/her chosen courses. It can be purchased directly from the AOU branch. The package is comprised of:

- The core teaching material especially prepared for independent study.
- An array of items that are dependent on the undertaken course, such as further reading material like set books, supporting notes or study guides.
- Audio-Visual aid.

## **2) Study Sessions**

Designed to provide a forum of interaction between tutors and students, and amongst the students themselves. Sessions are scheduled on a weekly or biweekly basis, and are meant as interactive tutorials covering the main topics for the study week identified in the University calendar. Sessions are conducted by highly qualified tutors whom utilize the sessions in innovative ways that help students interact and learn more efficiently and effectively.

## **3) Student Attendance**

Attendance is dependent on the number of credit hours registered in a semester. On average, students attend 4-8 hours per week. However, English orientation courses require 8 hours per week.

Tutorial sessions are not intended as classroom-style lectures. Students are expected to take responsibility for their own learning by studying the course material according to the schedule under the course calendar. Attending face-to-face tutorials is mandatory by students whose absence may not exceed 25% of the prescribed tutorials, as stated in the University calendar.

## **4) Office Hours**

Tutors maintain scheduled weekly or biweekly office hours that are intended to provide a more informal environment for academic support. Students are advised to take advantage of these.

# **University Resources**

## **1) Learning Resources**

To support academic programmes, students and tutors, each branch offers a variety of learning resources such as textbooks and IT resources. All students have access to a variety of programme and course resources that are accessible through the internet. This is known as the E-Library. Specifically, a Moodle-based software called Learning Management System (LMS) provides students and faculties in every branch access to all electronic resources to which AOU is subscribed. There is also a student support service electronic resource.

## **2) Computer Laboratories**

Each AOU branch has its various-purpose computer laboratories. Some courses have mandatory online components as primary or supporting course material intended to help in learning, and such material can be accessed in the labs. Electronic support for all courses is provided through the University's LMS, which also includes a teleconferencing facility. Additionally, AOU encourages electronic submission for student assignments.

## **3) Other Facilities**

Most AOU branches offer a variety of facilities such as student cafeteria, entertainment rooms and prayer rooms. There is usually ample parking space. Moreover, adequate provisions are made for students with special requirements such as ramps and dedicated special restrooms throughout campus. Lastly, lifts provide easier access to the upper floors of branch buildings.

## **University Branches**

Each branch dedicates a range of resources and support services for its students, which can be found on the branch's respective website. Such support services include, but are not limited to:

- Provide induction to AOU and the mode of instruction being employed.
- Provide guidance on how to choose a programme, courses and their order, and how to study effectively.
- Allocate subject-specialist tutors whom provide face-to-face tuition, mark assignments and be available during office hours to provide extra assistance.

## **Quality Assurance**

To ensure a high quality learning experience for students, the University monitors and evaluates its procedures, practices and student services on a systematic and regular basis.

### **1) Designing Learning Materials**

Designing courses learning materials is the direct responsibility of the Deans of the respective faculties. For newly designed courses, academic teams from inside and outside the University are

usually tasked with producing the required materials. Production of learning materials is conducted with certain specifications and implementation methodologies. Assessment is done externally by other universities to ensure that materials are of a high academic standard, comparable to materials used and taught in campus-based institutions.

All programmes are taught in English; Business Studies, IT and Computing Studies, and English Language Studies. Courses under these programmes are produced according to OU, UK's very high standards. Where necessary, courses materials (written and audio-visual) are adjusted to ensure adherence to Arabic and Islamic values. Faculty of Education programmes have also been developed to meet local accreditation requirements. In addition, some of its Master's programmes have been validated through OUVV.

The University also offers in-house local programmes in different branches. These include Graphics and Multimedia Design Technology, Business Accounting taught in Arabic, Electronic Media, Radio and Television, and Public Relations. In addition, Media contains three tracks; the Electronic Media Track, the Electronic Journalism Track, and Public Relations Track and Programme of Law.

## **2) *Tutors Management and Monitoring***

Since tutors are the interface between the University and its student body, care is taken to ensure that they deliver a high quality experience to students. Upon appointment, tutors are trained in generic teaching skills and in the specifics of the courses they will be tutoring. Each tutor is assigned 25-30 students. A full-time course coordinator in the branch monitors face-to-face sessions. Grading and the quality of feedback given to students on Tutor-Marked Assignments (TMAs) are also monitored. Additionally, students have the chance to evaluate their tutor's performance on a by-semester basis via an especially designed questionnaire. If inadequate performance is detected, the branch Director/Rector will take appropriate action him/herself.

## **3) *Assessment***

The relevant faculty's academic staff sets all assessment material. However, before an assignment or exam is approved for use, external assessors must approve the questions and model answers. In the case of OU, UK validated programmes, the assessors are external examiners.

The University adopts a rigorous policy for student achievement assessment in courses and programmes. The policy aims to create a robust and fair system of evaluation. Each system component intends to serve a learning need within the overall learning process. The components are as following:

### ***3.1) Tutor-Marked Assignments (TMAs) — Part of Continuous Assessment***

Each course requires students to complete a number of TMAs that are spread over its duration. They are marked by the student's course tutor, and they contribute to the total grade of the course. The number of TMAs is dependent on the level and credit rating of the course. At higher levels of study, some TMAs are set as thematic projects that require students to assemble rational arguments derived from many credible information sources.

TMAs are submitted on the specified dates in the course calendar via the LMS. For each TMA not submitted on its due date, the student shall receive a 0 mark unless he/she presents a valid excuse to the bodies assigned by the University. If the excuse is accepted, the student may be given a grace period of 7 calendar days, i.e. this period includes the immediate weekend following the TMA submission deadline.

### ***3.2) Midterm Assessments (MTAs) — Part of Continuous Assessment***

Another important mean of monitoring student progress during a course. MTAs are unified across all branches. The General Course Coordinator (GCC) prepares MTAs and the Dean submits them to the external examiners for final approval.

According to University rules and regulations, a student's grade in Continuous Assessment (TMAs and MTAs) in each course should be entered in the Student Information System (SIS) of the respective branch without delay, so that the student's grade record is completed at most 1 week before the beginning of final exams.

### ***3.3) Final Exams***

These exams are designed under the direct supervision of the Dean of the faculty, and are approved by the external examiners. Final exams also take place simultaneously in all branches.

### **3.4) Assessment and Examination Policy**

The University adopts various methods to assess the student progression rate toward achieving the program's objectives. The assessment strategy may vary from one course to another, but it usually includes the following:

- 50 marks are allocated for Continuous Assessment, distributed up to 20 for TMAs and up to 30 for MTAs. The other 50 marks are allocated for the final exam, which is held at the end of the semester.
- To pass a course, a student must achieve a 50/100 marks in the course final result, i.e. a minimum of 15 marks in continuous assessment and 35 marks in the final exam.
- For programmes validated by OU, UK, the degree award classification is calculated based on the student's average grade in his/her best 32 credit hours of courses in Level 5 and the best 32 credit hours of courses in Level 6, in a 1:2 ratio in accordance with the new framework for higher education qualifications in the UK.
- In all branches, all students must present identification in order to enter the examination room and attend the final exam.
- Final exam scripts are marked at the relevant branch under the supervision of the branch Director/Rector in coordination with the concerned Dean. Additionally, students' final exam scripts must be anonymous during the marking process.
- A student unable to attend the final exam due to an acceptable medical report or a force majeure excuse will be given an Incomplete (I) grade and he/she shall be allowed to sit for a make-up final exam in the nearest semester when that course is offered, otherwise he/she shall receive a Fail (F) grade.

### **Admission Requirements**

Applications for Admission:

- Prospective students can submit their applications electronically through the university website.
- Online applicants will receive an automatic reply confirming receipt of the application.
- Prospective students may need to submit their applications to the Admission and Registration Office in person if an online admission service is not available or accessible.
- Prospective students with disabilities may require assistance from admission staff to complete their applications.

- Prospective students are requested to read this document alongside the ‘Student Terms & Conditions to studying at AOU’.

The Branch Council devises and approves a specific admission policy in accordance with the admission requirements of the branch country. Required application documents may vary from one branch to another, but all branches require the following:

- A copy of the student’s high school certificate (or equivalent).
- A copy of the student’s ID or passport/labor card.
- Passport-size photos of the student.

## **Language Placement Tests (LPTs)**

The University administers LPTs in both Arabic and English, not as admission requirements, but rather as indicators to help place students in their appropriate language levels. Based on the scores, students will be assigned courses that aim to develop their Arabic/English proficiency in order to undertake the full course load in their respective areas of specialization.

## **English Language Courses**

OU, UK licensed courses are all taught in English. Therefore, the University has developed a number of English language competency courses. These courses are not validated by OU, UK. Delivered by the Faculty of Language Studies (FLS), the current programmes are:

- ***The English Orientation Programme (EOP)*** comprises 3 non-credit hour courses that target students with low English proficiency. The courses are EL097, EL098 and EL099.
- ***The English Communication Skills Programme (ECS)*** comprises 2 3-credit hour courses of compulsory University requirements. The courses are EL111 and EL112.

### ***1) Course Assignment and Classification***

The aforementioned courses are assigned based on students’ scores in the English LPT: Oxford Online Placement Test (OOPT). The courses are classified as follows: Beginner (EL097), Elementary (EL098), Pre-Intermediate (EL099), Intermediate (EL111) and Upper-Intermediate (EL112).

### ***2) Course Details***

- The programme offers significant face-to-face interaction between the student and the tutor at each level as the student's language skills develop.
- For each level in EOP, 4 2-hour tutorials are assigned weekly.
- ECS' credit courses have a total of 32 hours per semester distributed weekly as 2-hour tutorials.

### **3) Exemption from the Foundation Programme Courses EL111 and EL112**

Freshmen shall be exempted from the English LPT if they attain a minimum score of 550 in the TOEFL hard-copy version, a 213 in the TOEFL soft-copy version, a 79 in the IBT, or a 6.5 in the IELTS. The aforementioned score(s) must be obtained within 2 years preceding admission to the University.

## **Credit Transfer / Course Equivalency**

Each application must include a detailed description of each successfully-completed course alongside an official transcript showing the number of credit hours and marks earned. The course should be at least equivalent in its academic content and number of credit hours to the course offered by the University. At any level, credit transfer cannot exceed 14 credit hours. Applications for credit transfer are carefully scrutinized in accordance with the approved University criteria (*refer to Appendix A1 for details*).

The current University policy allows a student who has been admitted into an academic programme to apply for credit transfer against Level 3 courses (Level 1 previously). The current University policy does not allow level 5 or level 6 OU-UK courses to be equalized. Courses that have contents corresponding to those offered by AOU may be equated for AOU's local programmes only, if their total value does not exceed 64 credit hours. Admitted students may thereafter submit the required documents in order to gain the credit transfer for courses successfully completed at other recognized higher education institutions.

## **AOU Academic Degrees**

AOU comprises the Faculty of Business Studies (FBS), Faculty of Computing Studies (FCS), Faculty of Language Studies (FLS), and Faculty of Education Studies (FES). FBS, FCS and FLS have their programmes validated by OU, UK. Only some of FES’s programmes are partially validated by OU, UK. The 3 validated programmes are as follows:

### 6) Exit Awards (OU awards only)

Exit awards are part of the BA/Bsc (Hons.) degree validated programmes at the University. The rationale behind exit awards is that sometimes unseen circumstances (social/family considerations, job requirements, etc.) can cause students to exit without completing their Bachelor's programme, and the University wants to provide them with the opportunity to obtain a certificate or diploma for the efforts they have put in up to the point of exit. The objectives of doing exit awards are:

- To provide the student with a certain sense of satisfaction, having not wasted their time thus far.

الجامعة العربية المفتوحة  
Arab Open University

# **Arab Open University**

## **Scheme of Plagiarism Penalties**

**Version 4**

**Modified and Updated for the Academic Year 2022-2023**

## **Introduction:**

Plagiarism at AOU is considered as serious academic offenses and therefore dealt with stringently. Students and tutors alike are expected to comply with academic standards and rules for students' assessments that stress academic integrity.

## **Definitions:**

### **Plagiarism:**

The *Online Oxford English Dictionary* definition of plagiarism is as follows:

"The practice of taking someone else's work or ideas and passing them off as one's own"  
"Plagiarism is another form of cheating which occurs when a student is working independently on an assignment (e.g. essays, reports, presentations) and presenting other people's work as one's own".

Examples of Plagiarism include copying from a single or multiple sources using one or more of the following as the basis for the whole or good part of the assignment.

- 1) Published or unpublished books, articles or reports,
- 2) The Internet,
- 3) The media (e.g. TV programmes, radio programmes or newspaper articles)
- 4) An essay from an essay bank,
- 5) A piece of work previously submitted by another student.
- 6) Copying from a text which is about to be submitted for the same assignment

### **Academic integrity:**

**Definition:** "Academic integrity is the moral code or ethical policy of academia".

Academic integrity allows students and staff the freedom to build new ideas, knowledge and creative works while respecting and acknowledging the work of others.

Academic integrity embraces the values of accuracy, honesty, fairness, responsibility and respect. The University students are expected to take an active role in their own the information they need to study and to be honest in reporting their ideas and ideas derived from others.

### **Academic Misconduct:**

"Academic misconduct is any action or attempted action that may result in creating an unfair academic advantage for oneself or an unfair academic advantage or disadvantage for any other member or members of the academic community"

Academic misconduct includes a wide variety of behaviors such as cheating, plagiarism, altering academic documents or transcripts, gaining access to materials before they are intended to be available, and helping others to gain an unfair academic advantage.

“

The current plagiarism scheme of penalties and combating approach has been developed after a process of considerable analysis of the implementation and outcome of the previous policy that was designed and floated for a number of years. The scheme reinforces that curbing plagiarism cannot be restricted to merely detecting but has to lead to measures that help students identify aspects of writing that amount to plagiarism and thus develop their skills in refraining from leaning on plagiarism to communicate their work of writing. It also acknowledges the institutional role in combating plagiarism by having stricter enforcement and compliance measures by the teaching staff. This holistic approach in combating plagiarism coupled with a stretched leverage of benefit of doubt to the students as compared to that of the previous policy. The current policy aims to be able to develop a plagiarism free culture at AOU.

Implementation of plagiarism policy and plagiarism scheme of penalties at AOU rests on the following three principles:

1. **Academic Integrity:** Both students and staff are expected to observe the highest level of integrity to the academic work undertaken at AOU. At no point of time should students adopt methods wherein they indulge in academic malpractice such as plagiarism and contribute towards misjudgment of their actual learning outcome. Tutors are also expected to maintain highest standards in assessing student work and at all times and have no tolerance to plagiarism.
2. **Accountability:** Tutors assessing students work are accountable at AOU to ensure that no plagiarized student work is passed. Tutors are required to document any plagiarized work found and provide justified evidence of the same. All official forms for recording plagiarism numbers and implementation has to be maintained and produced when deemed necessary.
3. **Academic Judgement:** A blanket approach to defining plagiarism for all courses cannot be applicable always. The nature of certain courses e.g; programming courses cannot be viewed for plagiarism with the same parameters as that of other courses and therefore the approach to defining what constitutes as plagiarism will be different. Since manual detection of plagiarism can be a lengthy and complicated process especially when it involves large volume of students 'work, electronic detection using plagiarism software is a feasible option. However, relying on it solely may not be the best option and therefore combination with manual analysis, nuanced academic judgement and clear processes must provide the means to determine if plagiarism has occurred.

The following is the generic plagiarism scheme for all university programmes except for the information technology and computing Programme of the Faculty for Computer Science (FCS). The specific FCS scheme of penalties is shown below.

<b>Offense (1st time)</b>	<b>Penalty</b>	<b>Further Action</b>	
	<i>Proposed deduction of marks</i>	<i>Preventive measures</i>	<i>Documentation</i>
Plagiarized/copied: 0 to 30%	Assessment is marked normally, except for the plagiarized section. The tutor should comment on it.	Student is directed to refer to plagiarism tutorial.	
Plagiarized/copied: Over 30%	Award 0 mark	Student is directed to refer to plagiarism tutorial and test.	Formal warning in addition to placing the incident in the student's record.
Purchased assignment/contract cheating	Award 0 mark	Student is directed to refer to plagiarism tutorial and test.	Formal warning in addition to placing the incident in the student's record.
Collusion: Similarity level > 50%	No marks will be awarded for the questionable (colluded) section.	Student is directed to refer to plagiarism tutorial and test.	Formal warning in addition to placing the incident in the student's record.
Collusion: Similarity level < 50%	Award 0 mark		Formal warning in addition to placing the

			incident in the student's record.
--	--	--	-----------------------------------

Following is the plagiarism penalty scheme for Faculty of Computer Studies (pursuant to the nature of the course)

**Faculty of Computing Science - Plagiarism Penalties**

**All level 2/5 and 3/6 modules follow the same rules**

Similarity ratios and their corresponding penalties are as follows:

- 1) Similarity between [30% - 49%]: deduct 30% of the marks
- 2) Similarity between [50% - 69%]: deduct 50% of the marks
- 3) Similarity between [70% - 89%]: deduct 70% of the marks
- 4) Similarity between [90% - 100%]: Students get zero
  - All papers with similarity ratio  $\geq 70\%$  should be subject to extra academic judgment from the tutor.
  - For papers with similarity  $< 30\%$ , the tutor has the right to academically judge the percentage of the undiscovered plagiarism (if exist), hence taking the proper action.
  - If the assessment contains a part that is most likely to result in similar/identical students' answers, this part should be excluded from the similarity percentage.
  - In case of similarity between two students from different branches, both submissions should be investigated for the same penalty.
  - It is the Tutor's full responsibility to implement the above rules and to provide rationale on the student –feedback form.

**First Offense**

**Implémentation:**

- The primary responsibility of detecting plagiarism in student work would remain with the individual tutor who should always use his specialist knowledge and academic judgment in deciding on what is and what is not plagiarism.
- Tutors are advised to discuss plagiarized assessment with the course coordinator and to properly document all incidences of plagiarism of each section.
- The Branch Course Coordinators and as part of their monitoring roles are expected to regularly check random samples of students 'assessments/section.
- Branch Course Coordinators should monitor the process of marking Tutor Marked Assignments (TMAs) and other formative assessments encourage tutors to report plagiarism as some of the new tutors may not be aware of the University policy regarding plagiarism or how to handle such cases.

- Branch Course coordinators should monitor tutors' feedback on TMAs and other forms of assessments more rigorously, and ensure that no instance of plagiarism which can be detected by a tutor is overlooked, and to give appropriate feedback and provide the necessary support.
- The General Course Coordinators play an important role in internal quality are expected to carefully check assessments samples from the different AOU- Branches and provide prompt feedback to the BCCS.

**Reporting:** All cases of plagiarism will be recorded in the plagiarism record sheet and reported by the tutors to the respective Branch Course Coordinator.

**Recording:** All cases of plagiarism will be recorded in the student's permanent record (SIS).

**Second Offense:**

Student get a 0 mark in TMA in addition to reduction of course overall grade to pass mark only.

To be dealt with according to *the Bachelor's Degree Award Examination and Assessment Bylaws at the Arab Open University, Article 12*, which stipulates:

- A) Any student found to be committing any act of cheating or plagiarism shall be referred to *The Student Conduct and Disciplinary Procedures Bylaws at the Arab Open University*.

**Version 3**

**2022**

## **Introduction**

Every Tutor Marked Assignment has a cut- off date. Students are expected to submit assignments on or before the assigned cut- off date (published due date). Students should not leave assignment preparation until the last minute and must plan their workloads to be able to meet the cut- off date.

However, the AOU does recognize that students may not be able to complete and submit the TMA by the due date due to legitimate extenuating circumstances. In the event of extenuating circumstances, a student may request an extension without penalty. Such cases will be dealt with according to Article 4(E) of the AOU Examination & Assessment Bylaws. Any other late submissions will be dealt with according to terms stated below.

## **Purpose**

To establish a policy of fair and consistent treatment for late submission of TMAs throughout The AOU.

## **Scope**

The policy is applicable to all AOU Branches for all undergraduate and postgraduate Academic Programmes and to all AOU students.

Academic staff assessing TMAs are responsible for implementing and complying with the late submission policy.

Branch Programme Coordinators (BPCs) and Branch Course Coordinators (BCCs) are responsible for monitoring the implementation and compliance.

## Policy Statement

- This policy is designed to provide a consistent approach across the University for the Late Submission of TMAs for both undergraduate and postgraduate taught Programmes of study.
- It aims to ensure that all students are treated equitably and do not gain an unfair advantage by choosing to submit their work late.
- This policy does not cover “Extenuating Circumstances”. It is intended to work alongside the University bylaws
- Penalties for late submission shall be 10% of the total mark of the TMA for each day of late submission up to six(6) calendar days after the due date.
- TMAs will not be accepted after the sixth day and all late submissions have to be made electronically through the University Learning Management System (LMS).
- Late submitted TMAs will be checked by Plagiarism detection - software.
- Marked TMAs shall not be returned or posted to students before the end of the sixth day.

### *Example:*

If the TMA is marked out of 100, deduction of 10% means that 10 marks will be deducted per day, if the TMA is marked out of 20; deduction of 10% means a deduction of two marks per day.

## **BRIEF GUIDE TO STUDENTS' APPEALS AND COMPLAINTS**

### **FAQs**

#### **What are Appeals and Complaints? Is there a difference or are they one at the same?**

Appeals and Complaints are your mean of reporting or expressing dissatisfaction regarding aspects of your experience as a student of AOU. Appeals and Complaints are not the same, so you need to be aware of the difference before submitting an appeal or complaint.

#### **What is an appeal?**

Appeals refer to your grievance against a decision regarding course progression or course results. You may appeal as per the formal procedures of appeal set by the university.

#### **What is a complaint?**

You may complain about any aspect of your learning experience. The following are some examples of subjects of complaints.

1. Poor teaching quality or tutorial services
2. Misleading or withholding of information by tutor or administrative staff
3. Inadequate services and facilities
4. Access to resources or Facilities
5. Misconduct by any University staff – administrative or academic
6. Misconduct by any student within University premises
7. Offensive or racist remarks by staff or students within the University premises.
8. Administrative Decisions.

#### **When can I appeal?**

Appeals must be made within **seven days** of having received your course results decision that you are appealing about.

#### **When can I complain?**

The sooner you complain the better. Complaints that are made after a long gap (after one semester) may be difficult to resolve unless backed by strong supportive evidence.

### **How do I appeal or complain?**

For your convenience, the University has set up an online appeals and complaints system that you can access through your LMS account. You need to complete the available form with all details duly filled in. The form then will be forwarded to the concerned authority.

### **What is the information required from me to appeal and complain?**

You will be required to fill up an online form and provide all details about the issue that you are appealing or complaining about. You will also be required to provide your student identification details including your name, and contacts, and names and details of any other entity involved in the matter.

### **What do the appeals and complaints processes involve?**

The appeals and complaints processes vary since they deal with different issues.

**Appeals:** Once you have appealed against a decision or a course result, your appeal will be sent to the Branch Appeal Committee (BAC). The committee will investigate your appeal carefully; look into any relevant documents such as examination script or other course assessment material. Based on the outcome of the review process, the BAC will take a decision. The decision is either appeal upheld (appeal accepted with recommendation for corrective measures) or appeals rejected (no grounds for appeal). If the appeal is upheld, a copy of the decision will be sent to the Branch Rector and Vice President for Academic Affairs (VPAA) and the Central Examination Committee (CEC) for approval. The decision will be communicated to you through the online appeal system.

**Complaints:** You may complain any time during the academic year, by completing the University student complaints online form. You must state the grounds for the complaint giving detailed reasons to support your case. The student affairs department will process the complaint and forward it to the concerned department(s) for consideration. The concerned department will examine the complaint and it may consult other members of University staff or departments if it is deemed appropriate in particular cases. The Concerned department may find grounds for complaint and produce a report on the case setting out a decision on the case and the

documentations considered. The report will be sent to the Assistant Director for Administration and Finance or Assistant Director for Academic Affairs based on the nature and subject of the complaints for approval. The final decision will be sent to you through the online complaint system.

**Are there any other means for submitting an appeal or complaint?**

For your best interest, you are encouraged to make your complaint or appeal through the university approved online system. The online system ensures that students' appeals and complaints are properly documented and monitored. However, if you are not able to access the online system due to any technical issues or personnel circumstances, you need to contact the students' affair office and fill the respective form including the date, your signature and relevant details.

**How long would the entire process take?**

The entire process may take from 2-4 weeks. However, you may expect a reply earlier depending on the nature and gravity of your problem.

**Is my physical presence on campus required?**

No. All your complaints and appeals may be submitted electronically on the complaints and appeals available System. Unless otherwise required by the respective committee, your physical presence will not be required.

**What can I do if I am not satisfied with the decision of the committee? Is there another place where I can appeal?**

If you are not satisfied with the decision to reject your appeal/complaint, You have the right to re appeal or re-complain through the Branch/Director to a higher level committee or office within seven calendar days ( 1 week) of notification of the decision in question.

**Can I make a complaint against a tutor or another staff member?**

Yes, at no point in time will you be at a disadvantage for having made a complaint. Your dissatisfaction with academic or administrative services is of serious concern to the university and you are encouraged to report any issues and concerns.

**Will my information be kept confidential?**

Yes, confidentiality will be maintained regarding your appeal or complaint and no information whatsoever will be revealed to anyone other than those handling the case.

**Can I withdraw my complaint at any time?**

### **Arab Open University Equal Opportunity and Respect for Diversity Policy**

Policy Title:	Equal Opportunity and Respect for Diversity
Version Number:	4
Executive Owner:	University President
Approving Authority:	University Council # 75, March 2022
Policy Review:	Quality Assurance Accreditation, Academic and Institutional Standards Committee (QAAAIS)
Policy Implementation:	AOU Branches
Policy Monitoring and Compliance:	Quality Assurance and Accreditation Units at AOU Branches Students Affairs Offices Human Resources Department
Next Review Date:	January 2024

**Note:** A policy can be reviewed before the designated review date should there be a need to.

The Arab Open University was established to provide education based on merit only. It observes the rights and respects the dignity of staff, students, visitors and all others with whom the University has contacts. It makes every effort to create an inclusive and diverse working, learning and social environment, free from unfair discrimination, prejudice and all forms of harassment and bullying.

### **Policy Statement**

As a partner of OU-UK, AOU will adhere to the British Equality Act of April 2010, to be interpreted and applied within the legal framework of each AOU country and any other branch local accreditation requirements. The AOU thus commits itself to eliminate discrimination on the grounds of race and nationality, religion, gender, pregnancy and maternity, disability, age, social or economic class.

In line with the above Act, AOU adopts seven ‘protected characteristics’ groups on which unfair discrimination, harassment and victimization is prohibited. These groups are described below.

#### **1) Race and Nationality**

The terms ‘race and nationality’ refer to an individual's race, color, nationality and ethnicity.

- C) Color includes, for example, being black, colored or white.
- D) Nationality includes, for example, being a national or non – national or belonging to a certain ‘tribe’. People without citizenship), are included in this group.

AOU prohibits discrimination, harassment or victimization against a student (current, prospective or past), a member of staff (potential, current or past) or visitor to the University because of their race, whether perceived or actual.

#### **2) Religion**

Religion refers to:

- A) Religion (e.g. Islam, Christianity, Judaism, Hinduism, Zoroastrianism, Buddhism).
- B) Denomination of a religion (e.g. Sunni, Shiite, catholic, protestant).

AOU prohibits discrimination, harassment or victimization against a student (current, prospective or past), a member of staff (potential, current or past) or visitor to the University because of their religions, whether perceived or actual.

#### **3) Gender**

Gender equality in the context of AOU Equal Opportunity and Respect for Diversity policy refers to:

- A) Equality of access to employment and equality of access to academic provision irrespective of gender.

- B) Equality of treatment (e.g. pay, promotion) in the work place and in relation to academic provision irrespective of gender.
- C) Freedom from harassment and intimidation.

AOU prohibits discrimination, harassment or victimization against a student (current, prospective or past), a member of staff (potential, current or past) or a visitor to the University on the grounds of their gender, whether perceived or actual.

#### **4) Disability**

The term 'disabled' refers to a man or a woman who:

- A) Has a physical or mental impairment, with or without outward visible signs.
- B) The impairment has a substantial and long-term adverse effect on his/her ability to perform normal activities.

In this definition those who have to use a wheelchair as their method of movement (whether temporarily or permanently), and those who suffer from Depression, Dyslexia, Cancer, Multiple Sclerosis, HIV, are included. Protection for some disabilities, like Multiple Sclerosis, HIV and Cancer, starts at diagnosis even if there are no apparent symptoms.

AOU prohibits discrimination, harassment or victimization against a student (current, prospective or past), a woman or a man member of staff (potential, current or past) or a woman or man visitor to the University on the ground of their disability, whether perceived or actual.

#### **5) Age**

Age refers to a person belonging to a particular age group, which can include people of the same age and people of a particular range of ages.

AOU prohibits discrimination, harassment or victimization against a student (current, prospective or past), a member of staff (potential, current or past) or visitor to the University because of their age, whether perceived or actual. This means, for example, that AOU will not reject a qualified job applicant because the person belongs to a certain age group, whether perceived or actual.

#### **6) Special Treatment Based on Class**

This refers to advantageous treatment of applicants for admission or employment with the University, or advantageous treatment of current members of staff and students, on the ground of kinship, or their social, political or economic background.

AOU prohibits discrimination, harassment or victimization against an applicant for admission or a job with at the University, a student (current, prospective or past), a member of staff (potential, current or past) or visitor to the University because they do not belong to a privileged social or economic class.

## **7) Pregnancy and Maternity**

Pregnancy refers to women who are pregnant, whilst maternity covers a period of ten weeks after birth.

AOU prohibits discrimination, harassment or victimization against a student (current, prospective or past), a member of staff (potential, current or past) or visitor to the University because of pregnancy and maternity. This means, for example, that an applicant for admission to an academic programme or an applicant for a job at the University should not be excluded because she is pregnant or has recently given birth. Similarly, for example, chances for training or promotion should not be denied because of pregnancy.

### **Implementation**

In principle and in practice, the creation of an environment throughout the AOU where equality of opportunities and respect for diversity is fostered is the responsibility of all members of the University, both staff and students. However, the President of AOU is ultimately responsible for the implementation of this policy. To meet this responsibility, he/she will ensure that the following are achieved through an action plan to ensure the following:

All rules and regulations of the AOU are consistent with 1-7 above.

Adequate budget is allocated and necessary administrative infrastructure is set up for the implementation of this policy throughout AOU.

A robust monitoring mechanism to find the extent to which this policy is adhered to across all.

AOU Branches and HQ maintain this, using annual surveys and other relevant statistical methods.

An effective mechanism for processing grievances against any violation of 1-7 above in any AOU Branch or HQ by any student or member of staff is created and maintained (see Appendix 1).

Appropriate training is provided to all senior staff and student representatives about this policy and its implementation.

All AOU premises are equipped with facilities needed for the implementation of 1-7 above, for example those required by special requirements students.

All learning resources including libraries, counseling services, ITC labs and computer equipment's support the implementation of this policy.

All course materials, as far as possible, cater for the needs of the disabled students and they are provided with necessary assistance during registration and mid - term and final examinations in a dignified and effective manner.

## Appendix: Equality Issues Related to Students

- 2) **Assessment:** Special arrangements which do not adversely affect the validity of examinations and assessments will be provided to special requirements students.
- 3) **Curriculum:** The AOU is committed to the promotion of equal opportunity with respect to course content, approaches to teaching and learning, assessment methods and the structure and timetabling of courses of study.
- 4) **Teaching:** It is a fundamental principle of academic freedom that reasoned argument might be employed to test and challenge views and opinions of all kinds, and in no circumstances, the exercise of this freedom should be discouraged or denied. However, all staff and students of the AOU will use non-discriminatory and non-inflammatory language in such interactions.
- 5) **Services and Facilities:** The AOU is committed to the principle of equal access to the services it provides and the facilities it offers, including sports facilities.
- 6) **Health and Safety:** AOU aims to provide its staff and students with a healthy and safe environment in which to work and live and has policies and measures in place to ensure that.
- 7) **Disciplinary Procedures:** The AOU's Disciplinary Procedures will be kept under review to ensure that they are consistent with the University's Equal Opportunity and respect for diversity policy.
